

REMARKS

The Office Action of September 30, 2008 has been received and its contents carefully considered.

The Office Action only "objects" to several of the dependent claims, including claims 43 and 44. The present Amendment cancels claim 44 and transfers its subject matter to independent claim 1. The present Amendment also cancels claim 43 and transfers its subject matter to independent claim 37. Claims 1 and 37 thus now correspond to claims 43 and 44 in independent form. Accordingly, it is respectfully submitted that they are now in condition for immediate allowance.

The remaining independent claim is claim 2. The present Amendment revises it to include the recitations of claims 43 and 44. As a result, claim 2 now concludes with a "wherein" clause which recites that "the first and second heat radiating films are disposed at different distances from the substrate." It is respectfully submitted that the arrangement now defined by independent claim 2 is not anticipated by US patent 6,114,763 to Smith. Nor would an ordinarily skilled person have had an incentive to modify what Smith discloses so as to achieve the invention now defined by claim 2.

The remaining claims depend from the independent claims discussed above and recite additional limitations to further define the invention. They are therefore automatically patentable along with their independent claims and need not be further discussed.

For the foregoing reasons, it is respectfully submitted that this application is now in condition for allowance. Reconsideration of the application is therefore respectfully requested.

Respectfully submitted,

Allen Wood
